

# The **BEST BUY** Story

The 'BEST BUY' brand has been developed by the team at Barker's in response to a market need for products that are more affordable but still produce high quality results.

These products have been carefully crafted for customers that enjoy the current Barker's Professional range but are unable to fit the current premium products into their budgets.

The 'BEST BUY' products are still manufactured by Barker's and meet our quality criteria. Lower prices are made possible by optimising recipes with the most cost-effective ingredients whilst still producing good quality, full flavour products. Our aim is to make our products readily available to everyone within the foodservice industry regardless of their budget requirements.

- Lower price point
- Full flavour
- Good quality product
- Manufactured by Barker's right here in New Zealand

## DISPENSER TAPS

A dispenser tap is available for the Best Buy bag-in-box range of products. Please see steps below for attaching to the bag-in-box.

Step 1: (If required) Assemble tap by firmly attaching small end of round washer into the tap opening by clicking together (not twisting).

Step 2: Lie box on it's back so that perforated tab/product label is facing upwards.

Step 3: Gently push on perforated tab on front of box to open. Then pull out bung.

Step 4: Unscrew top off bung and remove seal.

Step 5: Attach tap by screwing onto bung.
